Wendy said she had placed safety procedures in newsletter

Competitors need bridle numbers when competing

Marcela and Janifer want to run the next big competition as official, participant, members.

Marcela wants to know if our club wants to purchase a portable round yard and place it up near the wash bay – will give competitors somewhere to lunge their horses.

Marcela suggested a strip of sand be placed on the ground between the indoor arena and the main pavilion. However, other members said that that is where the cattle are shown. She is going to approach Cam about these things. Lyn suggested someone go to a show meeting to find out if the club can put up a portable round yard. Kate found out that the club would need to make an application to Gatton Council.

Helen suggested that once a test is ridden for the day, then horse and rider leave the arena altogether. When riders finish their tests, they need to leave the arena and check out with gear check. There is no touching of horses in gear check by gear checkers. The onus is on the members to understand the rules of the club.

Angela brought up an issue about riders needing to be aware of stallions in warm up arenas.

Sharon Ross has contacted a riding underwear salesperson who said that she could have a riding underwear party. It was suggested we have a sales tent at the Audie. Members agreed.
